

HIPOT BUILDERS
LIMITED

COMPANY PROFILE

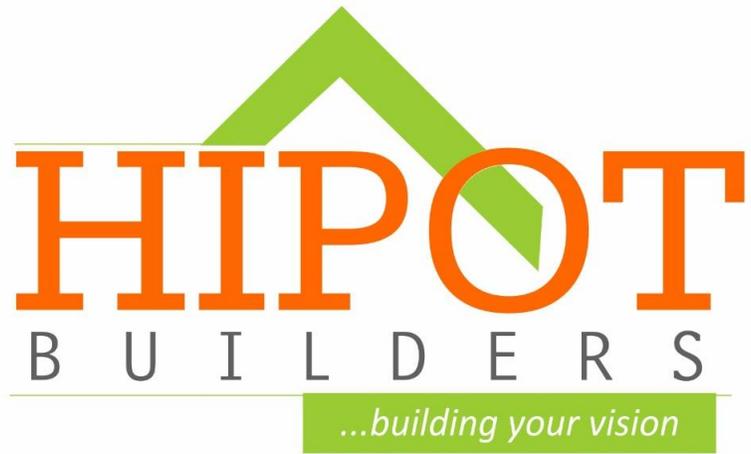

About us

Established in the year 2014, from Hambay Construction Company, Hipot Builders LTD is a Construction company specializing in general building construction, renovations and project management. HBL is a member of Hipot Group.

Since inception, HBL has been actively engaged in the development of quality residential housing projects as well as commercial construction developments and have provided these services for both individuals and corporate organizations.

We are committed to excellence and consistently delivering construction projects to the highest standards. At HBL, because we believe that honesty and integrity are as important as the bottom line, we encourage a culture of integrity coupled with ethical and safe work practices.

Our Vision

To provide top quality services in building construction and project management through safe methods of construction at the most cost-effective options to clients. To build to, and exceed client expected quality and create employment for and skill development in our sub-contractors.

Our Mission

To provide top quality services in building construction and project management through safe methods of construction at the most cost-effective options to clients. To build to, and exceed client expected quality and create employment for and skill development in our sub-contractors.

Our Values

We provide our clients with superior construction projects on time and within budget whilst maintaining a very high standard of quality.

We constantly strive to reduce cost in order to maintain a value for money.

We create a work environment where productivity, constant innovation and interactive management flourish.

We pursue a working environment of internationally accepted safety standards.

We produce such returns on invested capital that ensure the continued confidence and ongoing support of our shareholders.

We ensure our suppliers and subcontractors have an equal opportunity to make a fair profit.

We support good works and charities and bear our fair share of taxes.

Resources and Personnel

A large cross section of skills amongst HBL employees/consultants results in a construction team that can complete projects on time and within budget without compromising quality standard.

HBL makes use of highly qualified and well trained personnel with academic and technical qualifications. Based on our understanding of the industry, we place significant emphasis on technical competence.

By owning the necessary plants and equipments required for its operations HBL is able to undertake a wide range of construction projects, so far, across the southern parts of Nigeria. We believe in continuous improvement and development hence, we regularly train our employees. HBL has a sister company Hipot Homes that supplies our building materials helping us to ensure the use of quality materials and invariably further driving down construction cost.
